STYLING SECRETS

SPRAY DIRT™

Spray Dirt can be used in a variety of ways on all hair types to help achieve that sexy, separated look. It is enriched with Sweet Almond Protein and Natural Botanical Extracts to condition and improve the manageability of hair. 100% Vegan.

SIMPLE TIPS:

Shake Well Before Using—Spray Dirt is not a traditional hairspray! It is a spray wax that will add definition and provide light control for texturized, piecey styles.

Work Through Hair—This innovative formula will initially appear white when sprayed. This will quickly go away as you work the product thoroughly through the hair.

Use Only a Few Sprays—That's all you'll ever need!

CELEBRITY STYLING SECRETS:

For Light Control

Spray Dirt can finish your piecey style with light control. To finish your style, spray 2-3 times at arm's length and work through dry hair. To tame flyaways, one simple spray will do the trick.

For Added Texture and Definition

Cup hand and spray 2-3 times into palm creating a lightweight foam. Emulsify and work through damp or dry hair, separating and lifting layers for that second day look.

For Volume on Longer Hair

For an extra boost of volume, flip hair over and spray onto dry hair. Tousle, then flip hair back for soft body and bounce.
